Stretch Film

Our Stretch Film Is Made From Best Qualities of PE Especially which is Used LLDPE in Manufacturing process.

Our Machines Can Produce Both Types of Stretch film:

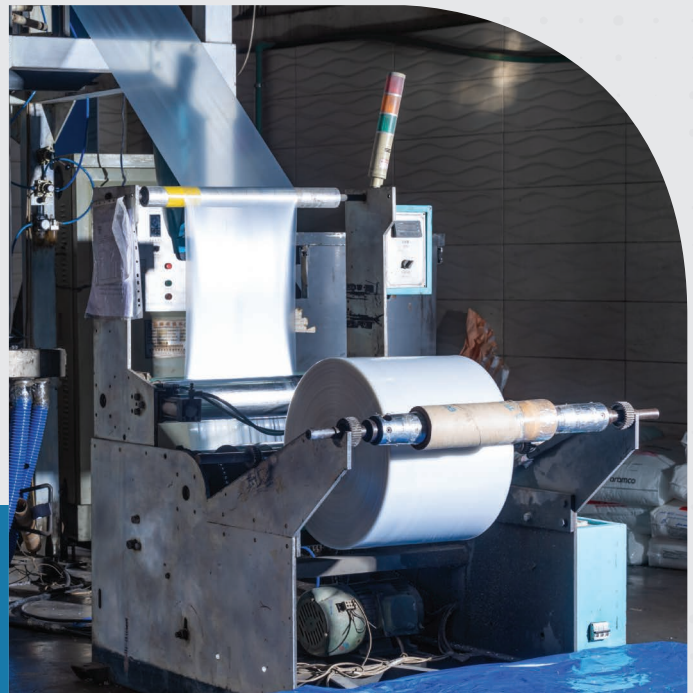

- Automatic
- Manual

LDPE Bags

We Use Best Qualities of PE
Our Machines Can Print

6 Colours On Both Film
Transparent and Colourful

Our Production Is Made For
Strong And Durable and
offers Puncture Resistance to
the product.

HDPE Bags

Our Products Are Made From Pure PE.

Our Machines Can Produce 2 layers Can Print 6

Colours on both Film Transparent And Colourful.

Heavy Duty Bags

A Mixture of Different PE Polymers Density That

Conform Great Optical And Mechanical properties.

Our Machines Can Print 6 Colours On Both Film

Transparent and Colourful.

COMING SOON

Polyethylene film with specifications

Minimum Thickness: 20 microns

Maximum Thickness: 200 microns

Film width till 2.6 meter

This film is used for major food and detergents manufactures.
